Subject: Silverton Newspaper Visited the Site

Hi Steve,

I wanted to let you know the local paper came by and took some photos of the site today (Mark Esper). He asked me about the project. I told him I don't speak for the EPA and that the water is being treated by raising the pH and letting clean water out into Cement Creek, while the mine is being prepared and checked out. He asked if you were on site and I said not today. He asked if The state Health or DRMS would be coming out and I said DRMS would be. He walked on the road through the site taking pictures.

I just wanted to give you a heads up on this since you were not here.

Thank You,

Elliott
